# Today's Agenda

- ✓ Meet the New RingOS Marketplace
- ✓ First App – Quick Books Online
- ✓ RingOS Billing vs QBO Accounting
- ✓ Let's Take a Look
- ✓ What's to come?

# RingOS Marketplace

The screenshot displays the RingLogix Marketplace web application. At the top, a navigation bar includes the RingLogix logo and links for Dashboard, Quotes, Customers, Number Ports, Support, Admin, and Marketplace. The Marketplace link is highlighted with a red arrow and a 'NEW' badge. The user's name, Albert Diaz, is shown in the top right corner. Below the navigation bar is a large banner with a blue-to-pink gradient background. The banner features the text 'RingOS + Your Stack = You Running Better' and a subtext 'Plug your apps into RingOS and powerup your operations'. A RingLogix logo icon is positioned in the bottom right corner of the banner. Underneath the banner, the interface is divided into two main sections. On the left, a 'Sort Integration By' section lists categories: Marketing, Accounting, CRM/PSA, UCaaS Platforms, and Ecosystem Partners. On the right, a 'What do you want to integrate today?' section contains a search bar. Below the search bar, three integration cards are displayed. The first card is for 'QuickBooks Online' (Accounting), the second is for 'PSA Integration' (CRM/PSA, Marketing, Accounting), and the third is for '3rd Party Platforms' (Communication). Each card includes a brief description of the integration's benefits.
